

DD 69/2023

Subject: Selection procedure by qualifications and possible interview for the assignment of one post-doc fellowship entitled “*Spectroscopic study of the absorption and emission features of ionized winds in high-redshift quasars*”

The Director of the Istituto di Astrofisica e Fisica Cosmica di Milano

- **In accordance** with the Decree 66/2023 of 21 November 2023, through which the Call for the selection based on candidates’ qualifications, possibly integrated by an interview, for the assignment of one "Post Doctoral" position entitled "**Spectroscopic study of the absorption and emission features of ionized winds in high-redshift quasars**" was issued;
- **Noted** the error in Art. 5, where the date of February 2023 is incorrectly indicated as the presumed start date of the aforementioned "Post Doctoral" position;

DETERMINES

Art.1

Addendum to the Selection Procedure

It is clarified that the presumed correct start date of the Research fellowship is February 2024.

Milano, date

Director

Dott.ssa Bianca Garilli
